Powerful patient management on your desktop

EncorePro 2 patient management system

The new EncorePro 2 is a simple, powerful, efficient and secure desktop patient management system that helps you manage your patients and business more efficiently than before. Incorporating the best features of our EncorePro data management system – such as data downloading, compliance reporting and prescription management – EncorePro 2 adds even more features and efficiencies.

• User friendly and intuitive interface is simple to learn and use
• Notifications aid identification of patients requiring attention
• Reminders, notes, contacts and business reports help manage clinical and business workflow
• Highly secure system helps you comply with your requirements under HIPAA
• Supports all Respironics therapy devices
