**For commonly prescribed medications**
- For commonly prescribed medications
Valved Holding Chamber with Mask
Small LiteTouch Mask included For children aged 0–18 m, For common asthma medications, Compact design
140 ml volume

Highlights

Get medicine to the lungs

OptiChamber Diamond is designed to improve aerosol delivery to the lungs and can help you maximise the effectiveness of your inhaled therapies.

Breathe easier

Low resistance valves

Low resistance valves open freely, even under low flow rates from children, allowing you or your child to breathe easily through the chamber.

Comfort

The detachable LiteTouch facemask has a soft contoured cushion that fits easily and rests gently on the face to provide a more comfortable treatment. The SoftTouch seal helps reduce leakage.

Compatible

OptiChamber Diamond is designed for use with all of your commonly prescribed inhaler medications.

Easy use, easy maintenance

The adapter keeps your inhaler securely in place, while the built-in whistle lets you know if you are breathing in too fast. Both the mouthpiece and adapter are easily removed for cleaning.

For adults and children

OptiChamber Diamond can be used by both children and adults.

Time to breathe

OptiChamber Diamond is designed to allow medication to be delivered to the lungs. The anti-static material inside the tube allows the aerosol to be suspended longer, giving you more time to inhale.
Specifications

Valved Holding Chamber with Mask
Small LiteTouch Mask included For children aged 0–18 m, For common asthma medications, Compact design
140 ml volume

Product details
• For use with: Children aged 1–5 yr
• Volume: 140 ml
• Length: 14.2 cm (5.6")
