IntelliSpace Connect Patient Care Reporting

Part number	Description
867126	<p>IntelliSpace Connect Patient Care Reporting enables the user to create an Administration account in which they can manage Patient Care Reporting as a records management company and/or manage the service level password reset of their HeartStart Intrepid device.</p> <p><i>Requires a compatible monitor/defibrillator or business unit approval. To access the Patient Care Reporting function IntelliSpace Connect Device Data is required.</i></p>

IntelliSpace Connect Device Data

Part number	Description
860443	<p>IntelliSpace Connect Device Data enables the transfer of the clinical data from the device to IntelliSpace Connect where it is stored in a Software as a Service (SaaS) repository. A dashboard allows the user to see 90 days of cases uploaded and to view cases individually in detail, such as 12-leads and vitals. Pre-configured reports can be generated as a PDF.</p> <p>This part must be ordered with an option. Additional options can be ordered when an option term expires. Customer must sign a SaaS contract with Philips per privacy guidelines.</p>
